DETAILED ACTION

Re-issue of previous office action

1. The previous office action is re-issued to provide for timely reconsideration with second level review in Class 705. Any change in status because of second level review response obtained before the 3 month statutory time period expires will be communicated to applicant.

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claims 19-24 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

The independent claim recites "a system of methods" which may span several statutory classes of subject matter. Since a system may be a method or apparatus, it is suggested that the term "system" in the preamble be deleted.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 19-24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It the claims the following is considered vague and indefinite:

the use of "and/or" or "/"; since the use of "/" is vague and indefinite in its use;

the use of words running together such as: "idetifierdata";

the use of phrase "this claim" and "this method" since a recitations refer to the claim language per se;

use of Latin phrases such as "infra";

the use of the abbreviation "e.g." since this may refer to indefiniteness of what is being claimed.

Response to Arguments

6. Applicant's response appears to be convincing. The previous rejection is maintained pending second level review.
